Bills introduced in the Council of the Governor of Fort St. George assembled for the purpose of making Laws and Regulations.

The following Bills which have been introduced in the Madras Legislative Council are published, together with the Statements of Objects and Reasons, under rule 20 of the Madras Legislative Council Rules:—

BILL No. 21 OF 1936.

A Bill to amend the Madras District Municipalities Act, 1920, and the Madras Local Boards Act, 1920, for a certain purpose.

WHEREAS it is expedient to amend the Madras District Municipalities Act, 1920, and the Madras Local Boards Act, 1920, for the purpose hereinafter appearing;

It is hereby enacted as follows:—

1. This Act may be called the Madras District Municipalities and Local Boards (Amendment) Act, 1936.

2. In Schedule III of the Madras Local Boards Act, 1920, at the end of rule 1, the following shall be added, namely:—

"or (*b*) is proved in the prescribed manner to be literate."

3. In sub-section (1) of section 46 of the Madras District Municipalities Act, 1920, before the word "and" at the end of clause (*c*), the following shall be added, namely:—

"or is proved in the prescribed manner to be literate"

STATEMENT OF OBJECTS AND REASONS.

According to the new franchise which has been prescribed for elections to the Madras Legislative Assembly, a person who, among other things, is proved in the prescribed manner to be literate is qualified to be placed in the electoral register. The qualifications for franchise for the district municipalities and local boards should not be less. The existing franchise for these bodies is based mostly upon the possession of property qualification which excludes a large number of persons, especially women, however competent to exercise a vote. The present Bill is intended to remove this anomaly.

BILL No. 22 OF 1936.

Local Government to make rules.

18. Nothing contained in this Act shall be deemed to affect the provisions of Act No I of 1918, or of Act No. VII of 1928 or of any law or custom or usage except to the extent expressly laid down in this Act.

STATEMENT OF OBJECTS AND REASONS.

Mismanagement by karanavans and suits for their removal have become the order of the day among the Moplahs following the Marumakkattayam Law. This is not only straining the relations between the members of a tarwad, but is also the cause of ruin of several Moplah tarwads. It is, therefore, necessary that the karanavans' duties should be well defined and they must be made to maintain proper accounts of their management.

Moplahs are orthodox Muslims. But a section of the Moplahs chiefly in North Malabar and the southern part of the Kasaragod taluk in South Kanara district, though following the Mahomedan Law in all other respects, follow Marumakkattayam Law in the matter of inheritance. Although this has been restricted in scope by the passing of the Moplah Succession Act No. I of 1918 and the Moplah Wills Act No. VII of 1928, yet the old custom still persists in the case of the tarwad property. There is a general desire that in this respect also the law must be made to conform to the Mahomedan Law.

The Madras Marumakkattayam Act No. XXII of 1933 which contains similar provisions applies to all the people following the Marumakkattayam Law, except the Moplahs. This Bill is intended, therefore, to bring the Moplahs in line with the other communities of Malabar.

BILL No. 23 OF 1936.

A Bill further to amend the Madras Local Boards Act, 1920, for a certain purpose.

WHEREAS it is expedient further to amend the Madras Local Boards Act, 1920, for the purpose hereinafter appearing;

It is hereby enacted as follows:—

1. This Act may be called the Madras Local Boards (Amendment) Act, 1936.

2. In sub-section (3) of section 47, *add* after the words "whether reserved or not," the following:—

"except that in a circle where a seat is reserved for Indian Christians, such a seat shall be filled by election by the Indian Christian voters of the circle, voting separately."

3. In section 70 of the Madras Local Boards Act, 1920, for the words " the President," where they first occur, the following words shall be substituted:—

" a committee of three persons consisting of the President and two members of the District Board elected for the purpose, one of whom shall belong to the minority communities."

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to make more effective the representation of Indian Christians in the district boards by ensuring that the representatives shall be persons acceptable to the community.

The Bill is intended to provide for further safeguarding the interests of the minority communities in the matter of entrusting this function completely to the President of a district board.

BILL No. 24 OF 1936.

A Bill to amend the Madras Local Boards Act, 1920.

1. This Act shall be called the Madras Local Boards (Amendment) Act, 1936.

2 In sub-section (2) of section 54 of the Act, after the word " headman," *add* the word " karnam "

STATEMENT OF OBJECTS AND REASONS.

Answering question 392 (585) on 21st January 1935, the Government was pleased to state " In G.O. No. 3184, L. & M. dated 11th August 1932, Government stated that as the village karnam was not a whole-time servant of the Government, he was not disqualified from election or for holding office as a member of a local board." This order was issued in the view that a general order could be issued under the second proviso to sub-section (2) of section 54 of the Madras Local Boards Act Government have since been advised that the section does not contemplate the making of a general declaration such as that found in the Government Order of 1932 The Government Order was, therefore, cancelled in G.O. No 2201, L. & M., dated 5th May 1934.

The intention of the Government is thus clear that they did not intend to disqualify karnams from serving as members of local boards and that the first Government Order had

to be cancelled as it was not advisable to issue it under the terms of sub-section (2) of section 51. The amending Bill is only intended to give effect to the declared intention of the Government and thus avoid the technical objection raised against G.O. No. 3184, L. & M., dated the 11th August 1932.

SCHEDULE II—ENACTMENTS REPEALED.

Sections relating to contract and trust in the Indian Penal Code in so far as they apply to the artisans' workshops in this Presidency.

STATEMENT OF OBJECTS AND REASONS

Innumerable measures have been made for the amelioration of the condition of the agriculturists, while the labourers employed in the cottage industries have been left alone though they could have been brought under general workers and the provisions of the Indian Factories Act made applicable to them. No doubt the attention of the whole country is now drawn to the development of the village industries, but nothing tangible can be achieved in that direction without the aid of proper legislation.

If some industries have to be put on a sound basis, protection of the workers therein and extending the provisions of the Madras Debt Conciliation Act, 1936, to them and those of the Madras Elementary Education (Amendment) Act, 1935, to the children employed in them making elementary education compulsory for them, is imperative.

It is widely well known that these artisans' workshops are kept under most insanitary conditions and that the employers are unfortunately hard hearted in keeping even children by making them work till midnight, not very seldom the whole night. This is detrimental to the health of workmen. The workers are their bond slaves, as they are always indebted to them and as they depend on their tender mercies for advances. A measure remedying all these defects is felt necessary.

The present measure is therefore intended to secure the above said objects and help the rural, industrial and economic progress of the country.

GANALA RAMAMOORTHY.

BILL No. 25 OF 1936.

A Bill further to amend the Madras Debtors' Protection Act, 1934, for a certain purpose

WHEREAS it is expedient to amend the Madras Debtors' Protection Act, 1934, for a certain purpose;

AND WHEREAS the previous sanction of the Governor-General has been obtained to the passing of the Act,

It is hereby enacted as follows:—

1. This Act may be called the Madras Debtors' Protection (Amendment) Act, 1936.

2. In section 2, sub-section (7) in the definition of 'loan' the words—

"being for a sum, or being of a value, of less than five hundred rupees at a time in any one transaction" shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

The Madras Debtors' Protection Act has a restricted application to loans of less than rupees five hundred. Even the recent amending provision fixing the maximum rates of interest at 9 and 15 per cent on secured and unsecured loans respectively is confined to loans of less than rupees five hundred. Such a limit on the amount of the loan is unnecessary and is calculated unjustly to deprive debtors in cases of higher loans of the protection of the Act. Hence the Bill.

C. BASU DEV.

BILL No. 27 OF 1936.

A Bill to amend the Madras Hindu Religious Endowments Act, 1927.

WHEREAS it is expedient to amend the Madras Hindu Religious Endowments Act, 1927, for a certain purpose;

It is hereby enacted as follows:—

1. This Act may be called the Madras Hindu Religious Endowments (Amendment) Act, 1936.

2. (1) In sub-section (1) and sub-section (2) of section 13 of the Madras Hindu Religious Endowments Act, the word 'five' shall be substituted for the word 'three'.

(2) After sub-section (3) of section 13 of the Act, the following proviso may be added:

"The present President and Commissioners of the Board except the Government servant lent to the Board shall hold office for a period of ten years from date when this Amending Act comes into force."

STATEMENT OF OBJECTS AND REASONS.

Whereas it has been found by experience that the interests and welfare of the several religious institutions in the Province do require a contented and long term officers instead of officers serving for a period of five years whose appointment and re-appointments should either directly or indirectly be influenced with the vicissitudes of parties in power, and whereas the experience gained by service in the Board should be utilized and not be exploited for political purposes, and whereas the present Board has made a determined effort to pay a portion of the loan due to the Government and the continuance of the same would more or less ensure the repayment of the total amount of loan advanced by the Government, this amendment is felt to be absolutely necessary in the interests of efficient and satisfactory administration of the Hindu Religious Endowments Board.

(b) For candidates for appointment to the Indian police a minimum height of 5 feet 4 inches and a minimum chest measurement of 33 inches (girth when fully expanded with a minimum expansion of two inches) are required. These minima are absolute and no Medical Officer or Board has power to waive them.

3. The candidate's height will be measured as follows:—He will remove his shoes and be placed against the standard with his feet together, and the weight thrown on the heels and not on the toes or outer sides of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks and shoulders touching the standard, the chin will be depressed or turned up as may be necessary to bring the vertex of the head level under the horizontal bar, and the height will be recorded in inches and parts of an inch to quarters.

4. The candidate's chest will be measured as follows.—He will be made to stand erect with his feet together, and to raise his arms over his head. The tape will be so adjusted round the chest that its upper edge touches the inferior angles of the shoulder blades behind, and its lower edge the upper part of the nipples in front. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to take a deep inspiration, several times, and the maximum expansion of the chest will be carefully noted.

The minimum and maximum will then be recorded in inches, 33—35, 34—36½, etc.

In recording the measurements, fractions of less than ¼ inch should not be noted.

5. The candidate will also be weighed, and his weight recorded in pounds. Fractions of a pound should not be noted.

APPENDIX

STANDARDS OF ACUTENESS OF VISION PRESCRIBED IN THE CASE OF CANDIDATES FOR APPOINTMENT TO SERVICE ON THE INDIAN STATE RAILWAYS.

I.—FOR THE SUPERIOR GRADES OF SERVICE.

The candidate's eyesight will be tested in accordance with the following rules. The results of such test will be recorded.

Class A.—Candidates for appointment to the Indian Railway Service of Engineers and Transportation (Traffic), Commercial, Mechanical Engineering, Transportation (Power), Bridge Engineering, Electrical Engineering, Signal Engineering and Coal Departments of the Superior Revenue Establishment of State Railways.

(i) *General.*—The candidate's eyes will be submitted to a general examination directed to the detection of any disease or abnormality. The candidate will be rejected if he suffers from any morbid conditions of the eyes, eyelids, or contiguous structures, of such a sort as to render, or to be likely at a future date to render him unfit for service.

(ii) *Visual acuity.*—The candidate will be examined to determine his acuity of vision, and the examination will include two tests, one for distant and the other for near vision. Each eye will be examined separately. No candidate will be accepted whose visual acuity falls below the following standards :—

	The one eye.	The other eye.
Distant vision—without glasses	6/12	6/18
" corrected with glasses ...	6/6	6/9
Manifest Hypermetia	3/6	14
Near vision—with or without glasses ...	36	24

(iii) *Colour perception.*—The candidate will be examined for colour knowledge. Any defect of colour perception will be a cause for rejection of the candidate.

Class B.—Candidates for Appointment to other Departments of the Superior Revenue Establishment of State Railways whose duties do not require them to be in responsible operative control of trolleys or other vehicles and/or to read signals.

(i) *General.*—As for Class A.

(ii) *Visual acuity.*—The examination will be as for Class A, but the minimal Visual requirements will be as follows:—

	The one eye.	The other eye.
Distant vision—with or without glasses ...	6/9	6/12
Near vision—with or without glasses	9/9	9/9

Note (1).—The difference in refraction between the one eye and the other eye shall not exceed 2·5 dioptres.

Note (2).—Hyopia in either eye shall not exceed 6 dioptres, and there shall be normal range of accommodation with the glasses, and no evidence of progressive morbid changes of choroid or retina.

(iii) *Colour perception.*—The candidate will be examined for colour knowledge, but although inability to distinguish the principal colours will not be regarded as a cause for rejection, nevertheless the fact will be noted in the report of the examination, and the candidate will be informed.

II.—FOR SUBORDINATE AND INFERIOR GRADES OF SERVICE.

1. For the purposes of the following Regulations all candidates for employment in the State Railway Service shall be allocated, by Class and Group, to the appropriate category in the subjoined classification, viz.:—

Rule I.—*Acuity of vision.*

Every candidate before admission to the Service shall be examined to ascertain his acuity of vision; and decision upon the suitability or otherwise of a recruit for admission to the service shall be governed by reference to the appended Table of Standard Visual Requirements and the attached explanatory Notes

TABLE OF STANDARD VISUAL REQUIREMENTS.

	Standard at Recruitment.			Standard at Re-examination.		
	Distant vision.		Near vision uncorrected.	Distant vision.		Near vision, corrected.
	Uncorrected.	Corrected.		Uncorrected.	Corrected.	
A-1	6/6, 6/9 H-1, 1	..	Sn. 0·5, 0·8	6/9, 6/12	6/6, 6/9	Sn. 0·5, 0·8
A-2	6/9, 6/9 H 1, 1·5	..	Sn. 0·5, 0·8	6/12, 6/12	6/9, 6/9	Sn. 0·5, 0·8
A-3	6/9 6/9 H-1, 1·5	..	Sn. 0·5, 0·8	6/12, 6/18 6/9 6/24	6/9, 6/12	Sn. 0·5, 0·8
B-1	6/9, 6/9	..	..	6/12, 6/18	6/9, 6/12	..
B-2	..	6/9, 6/6 M-4	..	..	6/9, 6/12	..
C-1	..	6/9, 6/12 M-4	..	.	6/9, 6/18	..
C-2		6/9, XII.	Sn. 0·5	..	..	..

(i) The paired vulgar-fractional entries opposite to the class index letter in the several columns indicate the distant vision of "the one" and "the other" eye, in the usual Snellen notation the examinees being at 6 metres from the test object.

(ii) The entries under the heading "Near vision" have reference to the near vision as recorded with Snellen's test types for the determination of the acuteness of vision.

(iii) In classes A-1, A-2 and A-3, under the heading "Standard at recruitment," "Distant vision, uncorrected" the letter "H" followed by two numerical entries beneath the entry of vision indicates the admissible manifest hypermetropia in "the one" and "the other" eye, similarly in Classes B-2, C-1, in the column "Distant vision, corrected" the letter "M" followed by a numerical entry beneath the entry of vision refers to the admissible myopia.

(iv) In Class A-3, under the heading "Standard at re-examination, distant vision, uncorrected," two sets of paired figures are shown, which indicate alternature admissible formulæ

(v) In general, where in any column no entry is made, it is to be assumed that the corresponding test is not obligatory; thus in Classes B-2, C-1 and C-2 "Standard at recruitment, distant vision, uncorrected," no entry is shown, but entries are shown for the same classes beneath the heading "Standard at recruitment, distant vision, corrected," the figures here entered refer accordingly to the standard of vision to be attained by recruits in these Classes with or without glasses.

The staff in any of the classes, to be allowed the use of spectacles, will be decided by individual administrations, except that Staff in Class A-1 will not be allowed the use of spectacles under the age of 40.

Rule II.—*Colour perception.*

All recruits for employment in the State Railway Service, except those for admission to Class C-2, will be examined with regard to their power of colour perception.

In Class A-1.—The highest standard of physiological competence with respect of all the factors enumerated above is required; distinctive importance is attached to rapidity of recognition, and to the absence of abnormal simultaneous contrast effects

In Class A-2.—The requirements are as for A-1, save for a relaxation in respect of the factor of rapidity of recognition.

In Classes A-3 and B-1.—The requirements generally are somewhat lower than for A-1 and A-2; marked abnormalities of simultaneous contrast effect will be a cause for declaring a candidate unfit for appointment to the service

In Class B-2.—No special examination for abnormalities of simultaneous contrast effects is necessary, the requirements in respect of visual angle are reduced.

In Class C-1.—The lowest standard of physiological competence compatible with the recognition at short range of signal lights, or coloured flags or other objects of contammarable area, is required

II For the purpose of these rules—

(a) Irrigation is said to be 'regular' when water is used for a crop under and in accordance with the terms of a permit issued by such authority as may be notified in that behalf to the District Gazette by the Collector of the district, if the source from which water is taken is in the charge of the Revenue Department, and by the Superintending Engineer if the source is in the charge of the Public Works Department. All other irrigation is 'irregular'.

(b) Irrigation sources which the Settlement Party has placed in classes I and II for the purpose of fixing the land revenue assessment on registered wet lands shall be placed in 'Group I'.

All other sources of irrigation shall be placed in 'Group II'.

(c) (i) A 'wet crop' includes paddy and any other crop, which is systematically irrigated for not more than six months;

(ii) A 'dalisal crop' includes sugarcane, betel, plantain, turmeric, elephant yam, areca, limes, oranges, pomegranates, and any other crop, which is systematically irrigated for more than six months.

(iii) A 'dry crop' means a crop which is neither a wet crop nor a dalisal crop.

Provided that 'Mundla' paddy shall be regarded as a dry crop.

Provided further that a coconut garden or any other plantation of trees shall be regarded as a dalisal crop, if it is systematically irrigated for more than six months and as a wet crop, if it is so irrigated for not more than six months.

Explanation.—The Collector of Salem, shall, from time to time, publish in the District Gazette lists of the crops which are to be regarded as wet or dalisal crops within the meaning of this clause in addition to the wet or dalisal crops specified herein.

(d) A 'second crop' is a crop grown on land on which a first irrigated wet or dry crop has already been grown in the same fasli, and

(e) A 'third crop' is a crop grown on land on which two irrigated wet or dry crops or an irrigated dalisal crop has already been grown in the same fasli.

III When water from any Government source is supplied or used for the regular irrigation of crops in the area to which these rules apply, water-cess shall be levied at the following rates and be collected according to the methods of the district concerned:

Provided that when the water cannot be used for irrigation, without raising it by baling or by means of a mechanical contrivance, a deduction of one-fourth of the said rates shall be made.

	Rs. a.	Rs. a.
1 For a first crop of paddy and for a second garden or other plantational trees which is regarded as a wet crop.	4 8	3 3
2 For any other first wet crop ..	3 0	2 4
3 For a dalisal crop	4 8	3 3
4 For a third *dry* crop and for a second or third crop, wet or dry.	3 0	1 8

IV. For irregular irrigation with water from any Government source water-cess shall be levied in accordance with the rules contained in Revenue Department Notification No. 138, dated the 5th May 1883, published at pages 779-780 of Part I of the *Fort St. George Gazette*, dated the 23rd May 1933, as altered or amended from time to time.

V Notwithstanding anything contained in the foregoing rules, the Government reserve the right with or without reasons given, to discontinue, either temporarily or permanently, the supply of water to any land, to alter the source of supply of water to any land, and to modify the method of charging for water and the rates at their discretion.

ANNEXURE.

Letter from M.R.Ry. J. BALAJI RAO Avargal, B.A., Special Assistant Settlement Officer, in charge, Party No. II, Salem, to the Joint Secretary, Board of Revenue, Madras, (through the Collector of Salem), R.C. No. C. 1040/36 (Confdl.), dated the 17th June 1936.

As stated in paragraph 33 of the scheme report for the resettlement of the hill villages of the southern taluks of the Salem district, I beg to submit the following proposals for the revision of the existing scale of water-rates in the villages covered by that report.

2 *General*.—Out of the 113 villages dealt with, water-rate was levied in 18 villages only in fasli 1342, there being no case of irrigation in that fasli in the remaining 95 villages. The 18 villages referred to comprise 14 out of the 16 villages on the Kollimalais, one village on the Bodamalais, Pachalurpatchaiyampalli, Veppadi and the plain village of Pallobattai which was settled along with the hill villages. The majority of the villages which pay water-rate are on the Kollimalais and except on these hills, there is no wet land nor any recognized source of irrigation anywhere among the hill areas. Unlike in the plains villages of the district, the entire wet land on the Kollimalais is registered as single crop. Government having waived their right to the imposition of a second crop charge. The present practice of registering wet lands as single crop and the concession of levying no extra charge for a second or subsequent crops have been proposed to be continued at the existing

restitutory also. The benefit of a second crop, free of charge, is not, however, admissible for a second crop on dry land which has to be paid for. The total extent of occupied dry land irrigated in fasli 1342 was only acres 173, of which acres 25 were irrigated from a first group source and acres 157 from second group sources.

3. *Scope of the report and the existing scale of rates.*—There is no irrigation from domum wells in the tract under report. A brief account of the policy and practice adopted from time to time in respect of the levy of water-rate on dry lands irrigated under sources, other than domum wells of the grouping of sources in force in the district for water-rate purposes has been given in the report containing proposals for the revision of the existing scales of water-rate in the plains villages of the northern taluks. As in the plains villages, two groups are found to have been recognized in the villages under reference also the first group rates of Rs. 4 and Rs. 2 for a first and second crop paddy respectively being found only in Pulmikuttai (a plain village settled along with the hill villages), for irrigation from an anicut channel. In the remaining 17 villages, only second group rates are being levied, the rates in force being Rs. 4-8-0 for dalusai crops, Rs. 3 and Rs. 1-8-0 for a first and second crop paddy respectively and Rs. 2-4-0 for other systematically irrigated first crops. These rates are the same as those existing in the adjacent plains villages for irrigation from second group sources.

4 *Equity of the existing rates and the case for revision examined.*—It has, in the first place, to be decided whether the rates proposed for the first and second group sources in the plains villages are suitable for the villages under report, according as irrigation is obtained from first or second group sources, or whether a reduced scale of rates should be framed or the existing rates continued. There has been no complaint regarding the heaviness of the existing rates and there are absolutely no grounds to sacrifice any portion of the existing water-rate revenue in the tract by reducing the existing scale of rates for a first crop. No change is called for also in the existing two group system which has been in vogue in the district and which has been proposed to be continued in the plains villages of the southern taluks of the district. The only point for consideration is whether the existing rates of water-cess are to be continued or whether they are to be raised to the level of the rates proposed for the plains villages in the southern taluks. A comparison of the commutation rates is not possible for the tract under report, owing to the absence of price recording stations in any of the hill tracts. The crops grown were not also the standard grains on which the settlement of the district had been based. A comparison of the figures relating to sale value of dry and wet lands in the Kollimalais which account for the largest number of villages having water-rate cases, however, shows that the present sale value has considerably increased over what it was during the first five years of the settlement period as shown below:—

Description of land.	Average value in the years		Increase.	Percentage of increase.
	1923-28.	1928-33.		
	Rs. A.	Rs. A.	Rs. A.	
Dry	21 1	54 14	33 13	160·63
Wet	113 9	316 6	202 13	178·37

These figures give us some idea of the increased value derived by the land from irrigation. No distinction has hitherto been made between the rates of water-cess of plains and hill villages and this principle may be continued as it does not appear desirable to have a different scale of rates for the hill villages. As stated in paragraph 22 (16) (c) of the scheme report, the supply in the springs on the Kollimalais cannot be said to be precarious owing to the copious rainfall which the tract gets. Water is generally sufficient to grow two crops. For these reasons and in consideration of the smallness of the area coming under water-rate cultivation and of the increase in the sale value of land mentioned above the adoption of the scale of water-rates proposed for the plains villages may not, I submit, be excessive. Under the revised rates of land revenue assessment proposed in the scheme report for the Kollimalai tract, however, the average incidence of assessment under wet lands is Rs. 3-2-0 per acre and that under dry lands is Re. 0-10-0. The difference which represents the charge for water for one crop is only Rs. 2-8-0 on an acre of land, while the rate proposed for the plains villages for a first paddy crop under second group sources is Rs. 3-12-0. The existing rate of Rs. 3 prevailing in the tract under report for a first paddy crop is slightly higher than the difference of Rs. 2-8-0 referred to above and this consideration should serve as an inducement to the ryot to have his land converted to wet to enable him to enjoy the benefit of a second crop free of charge.

5. *Proposals and financial results.*—From the foregoing facts it may be seen that the adoption of the rates proposed for the plains villages for the hill villages would seem justified. I, however, submit that some concession is necessary having regard to the relative disadvantages in which the hill villages are placed and with a view to encourage wet cultivation on the hills. These hill villages were dealt with more leniently than the villages in the plains in regard to land revenue assessment and it appears equitable to extend to them the concession of a scale of water-rates more lenient than that proposed for the plains villages, when we consider that the existing water-rate for a first paddy crop is by itself slightly higher than the difference of the average incidence between dry and wet lands in the tract. I therefore submit that the existing first crop rates may be left unaltered without any enhancement. A simplification of some of the second crop rates given in Appendix I A to B.S.O. Nos. 4 (2) is however necessary, as was done in the plains villages, following the principles that a single rate should be introduced for all second crop irrigated on dry land irrespective of whether the crop is wet or dry or whether it is systematically or occasionally irrigated and that three-fourths of the first group rates should be adopted for irrigation from second group sources. A table showing in one view the existing and the proposed rates under this proposal is enclosed (Appendix A). It may be seen therefrom that the first crop rates both under the first and second group sources, as also some of the second crop rates under the two groups of sources have been left unaltered. Out of the remaining second crop rates, the rates of Rs. 3 and Rs. 2-8-0 under the first group sources and Rs. 2-4-0 and Rs. 1-14-0 under the second group sources will be reduced to Rs. 2 and Rs. 1-8-0 respectively and the rest brought to the level of the reduced rates, according as irrigation is obtained from first or second group sources, the alterations being necessitated consequent on the simplification of the scale of second crop rates. As no portion of the extent brought under irrigation in fasli 1342 falls under any of the revised rates, the existing water-rate revenue in the tract is not affected by this proposal. The financial results by the application of the enhanced rates of the plains villages will, however, be an increase of water-rate revenue on system lands by Rs. 110 over the amount of Rs. 476 realized in fasli 1342 which works up to Rs. 476 per cent as against 24·70 per cent in the plains villages. Detailed figures are furnished in Appendix B. They have been gathered from No. 6 accounts of each village for fasli 1342 and they do not include water-rate levied for the irrigation of unoccupied lands, poramboke and unassessed lands and penal water-rate levied for irregular irrigation. In view, however, of my recommendation to accord a concessional treatment to the villages in question, I submit that the increase of Rs. 110 which could be expected by the application of the scale of water-rates proposed for the plains villages may be foregone and the rates proposed in Appendix A adopted even though the proposal does not result in any enhancement of the existing water-rate revenue in the tract.

6. *Tirvaikatti on water issues.*—The existing practice has been to charge water-rate on minor issues according to the scale of fixed water-rates applicable to registered lands. In paragraph 7 of my report which deals with the revision of the scale of water-rates in the plains villages, I have recommended that the existing practice of making no distinction between the scale of rates of two classes of land may continue. The same practice may continue in this tract also. No issue dry land was brought under irrigation in the tract under report in fasli 1342.

If the tender is made by a corporation it shall be signed by a duly authorised officer who shall produce with his tender, satisfactory evidence of his authority. The earnest money will not be received in cash or currency notes by the Public Works Department Officers.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4 When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of Rs. 750 (seven hundred and fifty) in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

6. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be so executed into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specifications sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Kistna Eastern Division.

6 The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification" Materials conforming to the British Standard Specifications shall be used in the work, and the tenderer shall quote his rates accordingly.

7 Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the descriptive specification sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender as called for in the descriptive specification sheet, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the descriptive specification sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the descriptive specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary specification" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Constructing plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents.
(7) Delays.
(8) Particulars of payment.
(9) Responsibilities and liabilities of contract.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Kistna Eastern Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on the schedule of quantities. He should quote specific rates for each item in the schedule and the rates should be in rupees, annas, and in annas of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump-sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule (A). The schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10 Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized, and, if any such alterations are made, the tender will be void.

11 The tenderer should work out his own rates without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12 The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's

certificates of the value of work done, will be required. Date of commencement of the programme will be the date on which the site (or premises) is handed over to the contractor :—

Period after date of commencement.	Percentage of work completed (based on centre line estimated amount).
Three months ..	15 per cent
Six months ..	40 "
Nine months ..	70 "
Twelve months ..	100 "

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power of attorney authorising others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms whether they employ such technical staff and if so to give the qualifications of such staff and the extent to which they will be employed on the work.

17. Separate payment will not be made for baling or pumping. The cost of all works necessary for any upwardering and protecting foundations found necessary during execution must be included in the unit rate.

The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specifications Sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specifications. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor after examination of the source of materials defined in the Descriptive Specifications Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8 The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specifications" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant,
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents.
(7) Delays.
(8) Particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Kistna Western Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump-sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump sum tender shall be written legible and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount and those not submitted in proper form or in this form will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form the conditions of contract, the drawings specifications, or quantities accompanying same will be recognized and, if any such alterations are made, the tender will be void.

11 The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date

of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump-sum amount)
Three months	25 per cent.
Six months	50 "
Nine months	75 "
Twelve or more months	100 "

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15 The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. The successful tenderer is expected to arrange for the collection of materials as soon as the agreement is accepted so as to facilitate starting of work.

17. No separate payment will be made for pumping or bailing water. The cost of all works necessary for de-watering and protecting foundations must be included in the unit rates quoted.
